Announcement Number: NW4607

Opening Date: 04-12-04

Closing Date: 04-23-04

Location: NAVY PUBLIC WORKS CENTER, WASHINGTON, DC and
BETHESDA, MARYLAND

Area of Consideration: Federal Employees/Reinstatement
Eligibles/Veterans

About Us: Navy Public Works Center is the Regional Facilities Management Team. We offer timely, best value, innovative, technological solutions and alternatives to meet our clients' facility management needs. We support the missions and provide the best Quality of Life for our NDW Family. Our facility services include: life cycle management, planning, maintenance, repair, construction, engineering, building services, grounds maintenance, transportation, utilities and other installation support.

About the Job: For both vacancies at the full performance level, work involves construction, alteration, repair or modification of items and structures such as framework, rafters, doors, finished paneling, window, rough furniture, interior, and exterior trim, staircases, drop type ceilings and floor coverings. The carpenter plans and completes projects from initial layout to final assembly or installation. Carpenter is required to measure accurately and to fill in gaps on incomplete blueprints, sketches, and work orders. At the helper level, the incumbent assists higher graded carpenters by performing simple, routine tasks designed to introduce the carpentry trade to the helper. These duties are performed on a continuous basis without much supervision; they are developmental, training

assignments. At the intermediate level, the worker is given more difficult assignments typical of a journeyman level carpenter, which are performed under very close supervision. The incumbent develops the skills needed to perform higher level duties under minimal supervision.

For the Washington, DC vacancy: During the performance of duties incumbent is subject to hazards such as dust and glass wool from insulation. Duties require work that involves the removal and handling of lead and asbestos. Requires work around machinery with moving parts such as saws, planers and other shop equipment. Employee is required to attend lead and asbestos certification training and be able to maintain up-dated certificates.

Selectee may be required to pass a physical examination.

The selecting official will take into consideration candidates' knowledge, skills, and abilities in the following areas in making a selection:

Lamination; Exterior Trim; Interior Trim; Exteriors; Furniture; Construction Work; Drop Ceilings; Structural Repair; Formica; Woodworking Joints.

If you are applying for the Bethesda vacancy it is important that you describe your experience dealing with lead and asbestos.
